- Data Structures / Algorithms
- Object Oriented Programming
- Time Management
- Excellent Communication
- Problem Solving
- Java

## Experience

### **Microsoft HoloLens Optics, Redmond - Junior Software Developer**

April 2020 - July 2020

- Designed, developed and implemented automated tools and test infrastructure for validating features and interfaces.
- Personally designed and implemented automation testing infrastructure for the HoloLens manufacturing execution system using Selenium and C#.
- Participated in ongoing product specification and code reviews.
- Translated customer requirements and product goals into appropriate testing / functionality.
- Wrote and maintained code, worked on minor bug fixes.
- Responded to requests from the development team.
- Worked heavily with C#, ASP.NET, SQL Server, Selenium, HTML, CSS, and JavaScript.
- Worked as part of a team and independently on small and large projects.

### **Retail Lockbox Inc, Seattle - Software QA Engineer**

September 2019 - April 2020

- Create and execute automated tests using C# and Selenium for web and console based software updates. Personally automated 90% of new DLL testing using Selenium and C#.
- Create and execute written test cases for web and console based software updates.
- Create and maintain documentation procedures using company Wiki, and Git Version Control.
- Manipulate databases using MS SQL when testing back end applications, and deploying packages to production.
- Deploy completed software packages into production environment.
- Research support tickets from end users and internal users and communicate issues found.
- Work on projects as part of a team and work independently on small and large projects.

### **Jiffy Lube, Kirkland - Assistant General Manager**

June 2016 - September 2019

- Set the example as a leader and build team engagement by focusing on the development of teammates, providing ongoing guidance, coaching and direction.
- Assist the Store Manager with budgeting, sales forecasts, P/L performance, etc.
- Manage inventory and product ordering that meets business needs
- Adhere to and hold others accountable to all rules and regulations that maintain a safe and productive work environment for teammates and guests.
